WHAT'S NEW?

U.S.A. MADE CABLE TIES

These cable ties, constructed of solid-piece 6/6 nylon, are available in numerous sizes and colors, with varying tensile strengths, operating temperature ranges, and UL Type rating(s), which will accommodate diverse applications and bundle diameters.

PG. 88

U.S.A. MADE SCREWDRIVERS

Mayhew's new made in the USA screwdrivers feature an ergonomic tri-lobular handle design and high alloy steel blades with a durable black oxide finish. Made with a custom heat-treat and temper process and tips precision machined to industry specifications.

PG. 95

MAYHEW EXTENDED LENGTH SOCKET BITS

Mayhew Tools announces the expansion of their socket bit product line with the addition of new medium and long-length socket bits, sold individually and as sets. The extended length of the medium and long socket bits makes these tools ideal for a wide array of applications where longer reach into deeply recessed fasteners or high-performance torque in tight spaces is needed.

20001 - Solid Punch 1/8" x 5"

Solid or Starter Punches

- For loosening frozen or tight pins and keys, or knocking out rivets
- Variable point sizes for different sized pins and keys
- Once loosened, follow up with a pin punch to drive the pin or key out
- Black oxide finish helps rust prevention

Non marring, non sparking USA brass punches and scrapers now offered in an improved smooth polished finish with a double knurled feature for more effective use. Whether the job requires a limited or the widest range of brass tools, Mayhew is the only professional solution to provide the requisite number of tools, within spec and with packaging that withstands typical harsh workplace environments.

10655 - Brass Scraper 3/8" - 10mm x 5-1/2"

Designed to remove gaskets and softer material where there is a concern of damaging the surface or causing sparks.

28620 - 90 Degree Lock
Grip Hose Clamp Plier

- Used to remove metal or plastic self-tightening hose clamps
- Enables user to reach, remove & lock clamps into the open position
- Easy and comfortable to use with a ratchet slide glide and ergonomic bi-material handles
- 28620: This forged clamp works on all types of spring clamps, including automotive, marine, aviation and today's heavy-duty spring clamps on larger vehicles. Features patented ratcheting which provides user with infinite locking positions. Double hinged locking mechanism adds leverage for less user fatigue.

TOUGH

Superior pawl design allows for easy insertion and pull through, while the tough serrated edges provide more precise locking.

DURABLE

Constructed of solid-piece nylon 6/6. Resists abrasives and chemicals such as oils and solvents.

Phillips® Reduced Insert Bits

The reduced diameter Phillips® insert bits feature a head that is smaller in diameter than the traditional which allows the bit to fit deeper into the screw head and get a more positive lock on the fastener. Ideal for driving drywall or particle board screws.

Phillips® Pin Head Insert Bits

The Phillips® Pin Head Bit is designed to drive a particular size screw, making each bit 'size specific'. An opening at the tip accommodates the pin in the recess of tamper Phillips® screws, providing an added level of security that prevents removal with ordinary screwdrivers.

Torx® Insert Bits

Torx® fasteners are becoming more and more common in automotive and appliance assembly for their ability to prevent cam-out better than a Phillips® or Slotted. Designed to match the improvements in torque-limiting automatic screwdriving tools.

Tamper Torx® Insert Bits

Tamper Torx® bits feature an opening at the tip which accommodates the pin in the recess of Tamper Torx® screws. Also known as pin-in-Torx® bits, the feature makes them impossible to remove without the right equipment and are especially helpful for applications requiring added security.

Torx® Plus Insert Bits

The six rounded points of the Torx® Plus bits feature a greater engagement area with the Torx® Plus Screws for higher torque transfer and reduced cam-out. While Torx® Plus bits have a similar profile to standard Torx®, they are not compatible with standard Torx® screws.

Tamper Torx® Plus Insert Bits

A variation of standard Torx® bits, these bits have a hole in the center to accommodate security screws and prevent the use of standard Torx® bits. Generally used on anything people do not want you to have access to, these bits are becoming more and more common in automotive and appliance assembly.

Pozidriv® Insert Bits

Pozidriv® style fasteners have ribs between each of the four arms of the cross which enhances the grip between the bit and the fastener. These bits provide a secure grip, reduce cam-out, and are ideal in electrical equipment applications.

Torq-Set® Insert Bits

In Torq-Set® bits, the arms of the cross are offset from each other, so they do not align to form intersecting slots across the top of the head. They are often used for torque-sensitive applications which are common in the aerospace industry and automotive repair sector.

Tamper Torx® Power Bits

Tamper Torx® bits feature an opening at the tip which accommodates the pin in the recess of Torx® screws. Also known as pin-in-Torx® bits, the feature makes them impossible to remove without the right equipment and are especially helpful for applications requiring added security.

PROFESSIONAL GRADE QUALITY MADE

SAE Ball Hex Power Bits

The ball-end hex provides an angled approach to engage hard-to-reach SAE fasteners, whereby the ball end makes it easier to slide the hex into the receiving slot.

Pozidriv® Power Bits

Pozidriv® style fasteners have ribs between each of the four arms of the cross which enhances the grip between the bit and the fastener. These bits provide a secure grip, reduce cam-out, and are ideal in electrical equipment applications.

Square Recess Power Bits

A Square Recess insert bit is highly-durable and can be used at construction sites and for woodworking. It provides easier insertion of the tool due to tapering and it rarely slips out of place.

19603-4 - NO. 3 x 2"
Square Recess Power Bit,
4 Pack

PROFESSIONAL GRADE QUALITY MADE

Clutch Power Bits

Clutch head screws are often used in travel manufacturing and for long-lasting installations. The head of clutch head screws have a normal drive and slanted rear face, preventing the screwdriver from applying torque when loosening fasteners.

19907-4 - 5/32" x 2" Clutch Power Bit, 4 Pack

45049 - Belt & Molding Remover

29894 - Stud Extractor - Fits Studs
5/64 - 9/32"

29895 - Stud Extractor - Fits Studs
1/4 - 1/2"

45052 - 9 PC SAE Twisted Hex Key

45053 - 9 PC Metric Twisted Hex Key

- Two composite soft-grip handle
- Striking cap on end for extra tough jobs
- Works effectively with most clips, fasteners and molding assemblies
- Removes window belt moldings, foreign and domestic
- Made in Taiwan to Mayhew's specifications

- Used to remove seized or broken studs and bolts
- Designed to fit into small areas, where studs may be hard to reach
- Made out of high-grade, heat-treated alloy steel
- Chrome finish for additional rust protection and aesthetic appeal
- Use with a 3/8" impact wrench, on low
- Made in Taiwan to Mayhew's specifications

- Superior Quality S2 Tool Steel
- Twisted prior to the heat treat to increase torque capacity
- Longer shaft for added leverage
- Exceeds ANSI standards
- Color coated to resist corrosion, manganese-phosphate contact areas to resist wear
- Available in fractional or metric sizes
- Made in Taiwan to Mayhew's specifications

Mayhew Tools forges the best tools from the finest materials and during our more than 160-year history have expanded beyond punch and chisel sets to provide a myriad of products for the do-it-yourselfers to the industry professional with the same dedication to upholding true American craftsmanship that Mayhew Tools is known for industry-wide

Mayhew Tools:

Each Mayhew hand tool is warranted to be free from defects in material and workmanship for the life of the tool under normal wear and tear, except for damage caused by misuse or alteration. Return the tool to place of purchase for replacement if warranty applies. This warranty gives you specific legal rights, which vary from state to state.

MayhewSelect & CatsPaw:

FOR TWO YEARS from the date of purchase, this Mayhew hand tool is warranted to be free from defects in material, workmanship, and normal wear and tear, except for damage caused by misuse or alteration. Return the tool to place of purchase for replacement if warranty applies. This warranty gives you specific legal rights, which vary from state to state.

Exclusions:

Warranties do not cover cables and cable assemblies, brass, hollow punches, lights, or batteries which are expendable parts that can wear out from normal use within the warranty period.

**TITANIUM DUAL DRIVE BITS
