The new CatsPaw™ Automatic Center Punch, from Mayhew Tools delivers an automatic spring-driven punch when pressed against a surface without the need for a hammer. When pressed against the workpiece, it stores energy in a spring and releases it as an impulse that drives the punch. This punch is ideal for creating a starting point on workpieces to prevent drill bits or screws from wandering.

**ADJUSTABLE FORCE**
Adjustable force by simply turning knob on the handle

**ERGONOMIC HANDLE**
Handle designed to allow a comfortable slip-free grip when in use.
